Part 1 (15 minutes)

Maximum points – 10

Listening

For items 1–10 listen to a dialogue and decide whether the statements 1–10 are TRUE according to the text you hear (A), or FALSE (B), or the information on the statement is NOT STATED in the text (C). You will hear the text twice.

- B 1. Charles's swimming pool is completely ready.
- ~~A~~ 2. Charles swam that morning.
- B 3. The swimming pool is just fifteen feet long.
- A 4. Charles is satisfied with the swimming pool's size.
- B 5. Charles's friend thinks that his swimming pool is not big enough for proper exercise.
- C 6. Charles learned how to swim a few weeks before.
- ~~C~~ 7. Charles's friend wants to dive in his swimming pool.
- B 8. The swimming pool is eighteen feet deep.
- A 9. Charles's swimming party will take place if it's warm enough.
- A 10. Charles's wants his friend to attend the swimming party. 85

Part 2 (40 minutes)

Maximum points – 30

Reading

Read the passage below and answer questions 1–15.

HYPNOSIS COMES OF AGE

It looks as though hypnosis, once thought of as something to be done on stage by a magician – and even considered until fairly recently by many doctors as medically useless – has finally come into its own. Research into the subject of hypnosis has revealed a great deal of interesting, sometimes exciting, and often startling information about the uses and value of hypnotism. Clinical hypnotists (qualified doctors who have been specially trained in the techniques of hypnosis – it is important to note that hypnotism is so powerful that it can be very dangerous when used by unqualified people) are using this

needle in a spoonful of mashed potato. The resulting experience – frightened parents, clanging ambulance, stern-faced doctors – had, in a way, burned a short circuit in his unconscious mind. This trouble spot showed up with the pressures of later life. When this was explained to him in a waking state, the patient soon gained peace of mind and his whole personality changed for the better. His problem took only three treatments, and he is now enjoying his meals for the first time in years.

One of the most fascinating but dangerous uses of hypnosis is in military intelligence. Communication in war is always a headache. Codes can be broken; a professional spy may or may not stay loyal; your own man may have complete loyalty, but his judgment may not always be perfect. Hypnosis, on the other hand, provides a unique solution.

Doctors see in hypnosis a possible answer to the rejection problem which surgeons meet when transplanting hearts and other organs. "Also," they say, "in long-term flights through space, auto-hypnosis could be an ideal solution to long periods of traveling time and to tiredness. It could be used – as it is on earth in research laboratories – to change the body functions of astronauts in order to put them in a hibernation-like state for certain periods. In both outer space and submarine exploration, men trained in the use of hypnosis would be able to help each other in many ways, such as control of pain, thus avoiding heavy and often dangerous drugs."

There is little doubt in my mind that 20 years from now people in this field will consider the material presented here interesting but strictly ancient history. All the present signs indicate that hypnotism, after 200 years of struggle for attention, has come of age.

Task 1.

Questions 1–7

Do the following statements agree with the information given in the text? In boxes 1–7 on your answer sheet, circle: A (TRUE) if the statement agrees with the information given in the text; B (FALSE) if the statement contradicts the information given in the text or if the statement contains the information which is not in the text.

- ☒ 1. Cheek's research indicates the strong possibility that surgeons' distressing talk in an operating room may sometimes account for postoperative depression in a patient.
- ☐ 2. Today, the medical use of hypnosis is in decline.
- ☐ 3. Magicians on stage are helping to remove the fog of doubt and mystery which has surrounded hypnosis ever since it was recognized as a powerful tool.
- ☐ 4. Hypnosis can hardly make it possible for a subject to dream a complicated plan or solution to a problem.
- ☒ 5. Clinical hypnotists have considerable evidence that hypnotic states could be used to change an astronaut's body's metabolism to make a person younger.
- ☐ 6. Hypnosis is neither nervous nor induced sleep.
- ☐ 7. Hypnosis is not accepted by the medical community even now due to its alleged ability to substitute heavy and often dangerous drugs.

Task 2. Questions 8–15

Choose option A, B, C which best fits according to the text. Circle the correct letter in boxes 8–15 on your answer sheet.

8. The brain-wave patterns of subjects in a state of hypnosis are similar to those of people who are ...

- ☒ A. in the middle of a good night's sleep
- B. very upset about something
- ☐ C. under deep anesthesia

- ☒ A. feel less pain
- B. are more sensitive to pain
- C. think they are being hurt more

10. Auto-hypnosis could be an ideal solution to ...

- A. mental illnesses
- B. physical disorders
- ☒ C. long periods of traveling time

11. A person who is regressed under hypnosis ...

- A. is made temporarily less intelligent
- B. is taught to forget unpleasant things that have happened
- ☒ C. will recall things that he normally wouldn't remember

12. There is scientific evidence which indicates the remarks made in surgery while the patient is under anesthesia ...

- A. cannot be heard by the patient
- ☒ B. may prevent the patient from recovering
- C. may cause the surgeon to make mistakes

13. Hypnosis is very well suited to ...

- ☒ A. international spying
- B. the average classroom
- C. committee meetings

14. One of the most fascinating but dangerous uses of hypnosis is in ...

- A. submarine exploration
- ☒ B. military intelligence
- C. childbirth

15. The author believes that in future hypnosis will become ...

- A. less popular

more popular ✓
C. ancient history

Part 3 (35 minutes)
Maximum points – 20
Use of English

125
